

MONO STEEL INDIA LTD.

COMPANY PROFILE

MONO Steel India Ltd. is an industrial power house with a dominant presence in steel and power. Part of BhupatraiChimanlal Group of companies, the wide visionary group is engaged in various type of manufacturing units since 1975, particularly high quantity steel. This young, agile and responsive company is constantly expanding its capabilities to fuel its fairytale journey.

Led by Mr. Hitesh Shah, the son of ShriChimanlal Shah, the company produces economical and efficient steel & power through backward and forward integration. The product of MONO are of premium quality in terms of dimensional adherence and internal soundness owing to its clean raw material, sound steel refining facilities and an advanced fully automatic efficient rolling mill.

Today **Mono Group** is the leading Steel product manufacturer and exporter in Gujarat. With a fully integrated Steel and a sponge iron plant located in Kutch we produce steel products like Sponge Iron, Mild Steel Billets, German Technology TMT bars, CRS TMT bars and Pig Iron. Our products are widely imported by major countries like Indonesia, Philippines, Sri Lanka, Turkey, Kenya, Malaysia, Mauritius, Sudan and Myanmar, making us the leader in exports of steel goods from Gujarat. Also our products are used throughout the state of Gujarat and surrounding states of Rajasthan, Madhya Pradesh, Punjab, etc.

About MONO TMT Bars

In the present scenario, demand for steel is raising and for creating infrastructure facilities throughout the country, the requirement of steel is a primary input and side by side sponge iron (Direct Reused Iron) is replacing melting scrap and steel making through sponge iron route is getting popular as it gives better consistency and top class quality with great cost control and availability.

Mono Steel India limited is one of the western India's major steel producers with a significant presence in sponge iron, power, Billets and state-of-the art rolling mill.

Mono TMT bars are technically advanced and fully automatic computerized thermo mechanically treated by Turboquench™ German technology which is world's latest and best technology for TMT and is patented in Europe and USA. Our modern mill is equipped with enhanced temperature control system producing TMT bars 6-40 mm.

Mono Steel India Limited operates 1,70,000tonnes per annum capacity bar mill. This mill produces high strength bars confirming to IS 1786:2008 Fe 415, Fe 415D, Fe 500, Fe 500D, Fe 550, Fe 550D grade in normal, EQR & CRS quality. TMT production using the superior and clean steel billets produced at MONO Steel, through the DRI – 1F – CCM – ROLLING route with highly controlled steel chemistry & very low levels of Sulphur and Phosphorus. High Yield Quenching & Self Tempering TMT technology produces bars with high strength, high ductility, high bendability and high weld ability. Mono TMT bars are thus able to withstand shock loading and cyclic loading conditions making them the choice of the designers for buildings in the high seismic areas.

Mono Steel India limited first in Gujarat produce 6mm TMT bars confirming to IS 1786 : 2008 Fe 500 with using the superior and clean steel billets produced at MONO Steel.

Our Location

For establishing an integrated steel plant and a sponge iron plant, requirement of contiguous land is a must. Besides, due to environmental considerations, creating of green belt of approximately 25% of total area is a must. Both steel plant and sponge iron plant are highly polluting industries and therefore taking the environmental aspect into our primary consideration, we had acquired approximately 200 acres of land with over 30% area under green belt.

The plant is located in the heart of Kutch District of Gujarat State. With proximity to major sea ports: 60 Kilo meter from Pandit Deen Dayal Kandla Sea port, 90 KM from Mundra Sea Port, 130 Kilo meters from Navlaki sea port, 25 Kilo meter from Tuna Sea port, 300 Kilo meter from Alang Ship Building Industry, Bhavnagar.

For bringing raw material like iron ore, coal in bulk by Rail link, Bhachau Railway Siding, Samakiyali Railway Siding, Gandhidham Railway siding is very convenient to bring bulk quantities.

Administrative office located in centre of the city, Gandhidham easily access by way of Ahmedabad –Kandla National High way, few minutes distance from Gandhidham Railway Station, .

Alongside contributing to India's growth story with 'Make in India' the group is in process of major expansion by developing and implementing iron ore mining, coal mining & iron ore pelletization plant in the state of Chhattisgarh.

The company is having very good approach with various iron ore mines like Banglore, Hospet (Karnataka), Udaipur,(Rajasthan) Goa (Goa)etc.,

Since in Kutch sea routes also open to bring the material it is cheaper for industries those who are bringing material by water ways rather than road transports.

After declaration from PanditDeenDayal Port trust promoting the Industrial areas and SEZ zones the growth of the industries is getting multifold developments.

Mono Group has its own logistics having 300+ vehicles for bringing input materials and supplying finished output goods to all destinations.

The Company has following Divisions

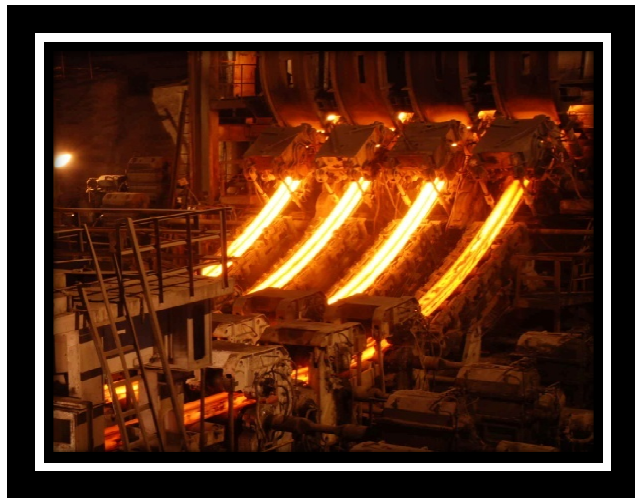

Sponge Iron Division

Sponge Iron Plant

**100 TPD – 5
Units**

Steel Melting Shop Division

Induction Furnace

30 MT Furnace 2 Units

15 MT Furnace 1 Unit

12 MT Furnace 1 Unit

10 MT Furnace 1 Unit

08 MT Furnace 1 Unit

Total Capacity 105 MT

➤ Now, the Company has under expansion of

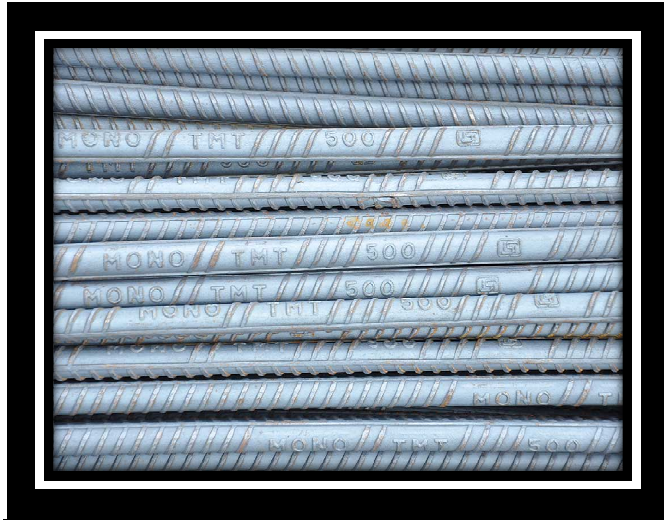

Induction Furnace

30 MT Furnace 2 Units

15 MT Furnace 1 Units

12 MT Furnace 1 Units

German Technology TMT bars & CRS TMT bars Division

18 Stand Mill

600 MT TPD

➤ Now, the Company has under expansion of

18 Stand Mill

600 MT TPD – 2 Units

Pig iron Division

Blast Furnace

200 MT TPD

Captive Power Plant

**Waste Heat Recovery
CPP**

12 MW

➤ Now, the Company has under expansion of

**Waste Heat Recovery
CPP**

20 MW – 2 Units

The Company has having DISCOM power connection of PGVCL

Unit 1 :	09000 KVA
Unit 2 :	40000 KVA
Unit 3:	16000 KVA

EXPORTS

Mono Steel India Ltd, has started its exports from 2017 onwards

Country	Product	Quantity in MT
Indonesia	MS Billets	82000
Philippines		27000
Sri Lanka		1600
Dar Es Salam		200
Djibouti		4500
Turkey		1500
Kenya		18000
Malaysia		20500
Mauritius		9500
Sudan		4300
South Africa	Sponge Iron	19000
Myanmar	TMT Bars	7000
Pakistan	Pig Iron	2000
Total		1,97,100

Our forthcoming Pipeline Projects:

- Increasing capacity of MS Billets by putting additional induction furnaces
- Increasing capacity of sponge Iron by putting additional ABC Kiln.
- Increasing capacity of German Technology special TMT Bars by putting additional plant
- Increasing capacity of motive power production through wind mill, waste heat recovery and coal based power plant

Our products are compliance with

Quality Management System

- ISO 9001:2008
- ISO 9001:2015

Environmental Management System

- ISO 14001:2004
- ISO 14001:2015

Occupational Health & Safety Management System

- OHSAS 18001:2007

Registered With **BIS** Mark

- MS BILLETS IS 2830:2012
 - TMT BARS IS 1786:2008
-

Our leading Clienteles

Major Client List		
No.	Name Of Clients	Place
1	A.I. Isapt Pvt. Ltd	Mehsana
2	A.M Ispat Pvt. Ltd	Bhavnagar
3	Aashiana Rolling Mill Pvt.Ltd.	Ahmedabad
4	Aggarwal And Company	Bhavnagar
5	Aggarwal TMT Industries Pvt.Ltd	Ahmedabad
